RECYCLING JUST *ONE* ALUMINUM
CAN SAVES ENOUGH ELECTRICITY
TO LIGHT A 100-WATT BULB
FOR 3 1/2 HOURS.

Recycling _____ pounds or _____ cans
saves enough energy to light a 100-watt bulb
continuously for _____ years!

How many years
of energy could
be saved if you
(or your group)
are aluminum
cans that can
be recycled??

TO FIND OUT:
Step on the scale
and then plug
the numbers into
the sentence
above.

1000 pounds =
32,000 cans

13 years

900 pounds =
28,800 cans

11.7 years

800 pounds =
25,600 cans

10.4 years

700 pounds =
22,400 cans

9.1 years

600 pounds =
19,200 cans

7.8 years

500 pounds =
16,000 cans

6.5 years

400 pounds =
12,800 cans

5.2 years

300 pounds =
9,600 cans

3.9 years

200 pounds =
6,400 cans

2.6 years

100 pounds =
3,200 cans

1.3 years
