**RE: Connecticut General Statutes 22a-263
Annual Report of Connecticut Resources Recovery Authority Operations
For the Fiscal Year Ending June 30, 2011**

Dear Speaker Donovan and President Williams:

This is the annual report of operations of the Connecticut Resources Recovery Authority (the "Authority") to the Connecticut General Assembly for the Fiscal Year ending June 30, 2011, as required by Connecticut General Statutes Section 22a-263 (the "Statute").

The Authority is responsible for implementing solid waste disposal and resource recovery systems and facilities throughout the State of Connecticut (the "State") in accordance with the State Solid Waste Management Plan. The Authority is comprised of separate and distinct, comprehensive solid waste disposal project systems located throughout the State. Therefore, the Statute requirements are reported separately for each project. Please be advised that the Bridgeport Project expired on December 31, 2008 when the Bridgeport Project bonds matured and ownership of the Bridgeport facility was transferred to Wheelabrator. On January 1, 2009, the Authority created the SouthWest Division to service 12 of the former 18 Bridgeport Project towns to provide solid waste disposal capacity on their behalf at the former Bridgeport facility. Furthermore, on June 30, 2010 the Wallingford Project expired and this facility is now owned and operated by Covanta.

If you have any questions on these or other matters, or if I may provide additional information, please contact me directly at 860-757-7777.

Sincerely,

A handwritten signature in black ink that reads "Thomas D. Kirk". The signature is written in a cursive, flowing style.

Thomas D. Kirk
President
