This Addendum consists of the Connecticut Resources Recovery Authority’s (CRRA) responses to questions that were raised at the pre-bid conference and site tour on April 8, 2008 and to questions that were submitted in writing to CRRA by April 15, 2008, the deadline for questions specified in the RFB Package Documents. Attached to the Addendum is a list of the individuals that attended the pre-bid conference and site tour.

1.	Question	On average, how much have monthly billings for non-routine services compared to billings for routine services?
	Answer	On average, monthly billings for non-routing services have been at least as much as billings for routing services.

2.	Question	If, during a quarterly inspection, the contractor identified an issue, what would the contractor be expected to do?
	Answer	If, during a quarterly inspection, the contractor identified an issue that was of an emergency nature, the contractor would be expected to notify CRRA and to respond to it immediately. If the issue is of a non-emergency nature, the contractor would be expected to notify CRRA, negotiate a request for services with CRRA and, when the request for services is properly executed, respond to the issue.
