Allied Restoration Corp.	\$174,630	X	
Beaulieu Company, LLC	\$159,690	X	
Colony Roofing Industries Inc.	\$187,000	X	
FGF Construction Network Services	\$125,712		X
Imperial Company, Inc., The	\$165,464	X	
Steel Tech	\$165,800	X	
Steel Tech	\$150,000		X
Titan Roofing, Inc.	\$178,000	X	

- \* The basis of design for the RFB was the Garland Company Standing Seam Metal Roof system. As stipulated in the RFB documents, CRRA will consider proposals for alternative roof systems that are equivalent to the Garland system. CRRA did not pre-qualify any roof system as equivalent to the Garland System. CRRA will now undertake an analysis of the system proposed by the apparent low, qualified bidder to determine whether or not the proposed system is equivalent to the Garland System. If CRRA determines that the proposed system is not equivalent, it will then move on to consideration of the next apparent low, qualified bidder.
