Enjoy the CRRA Trash Museum OPEN HOUSE from 10 a.m. to 2 p.m. at your own pace. Check out the special Green Cleaning Workshop at the Open House from 11:30 a.m. to 12:30 p.m.

Breathe Easy While Cleaning

11:30 a.m. to 12:30 p.m. in the Trash Museum amphitheater

Many common household cleaning products contain chemicals that can have adverse effects on your health and the environment. Judy Prill from the Connecticut Department of Environmental Protection will show you what to look for on product labels and will demonstrate how to make home-made green cleaners. Participants of this workshop will receive a laminated card with recipes for alternatives to toxic cleaning products.

See Sustainable Dave's Trash Revealed!

David Chameides is a world-renowned environmental leader (and also an Emmy Award-winning cinematographer) who, in an entire year, managed to make only 28.5 pounds of trash. Compare that to the approximately 2,000 pounds that most Americans make each year!

See the actual trash revealed and learn how he did it!

No cost!
